

Mansfield Center for the Performing Arts

In July of 2010, SKIHI Enterprises, Ltd. was awarded the mechanical portion of the New Center for the Performing Arts building for the Mansfield Independent School District. The new Huckabee and Associates designed building is a 142,000 square foot multi use facility comprising of a 6000 seat auditorium, labs, classrooms and a banquet hall, will be used for graduation ceremonies, concerts and plays.

SKIHI's CftPA scope consists of plumbing, HVAC, mechanical piping and controls. SKIHI's 60 trained mechanics and helpers are installing 3 – Air Cooled Chillers, 10 – Air Handling Units (4) with multi zone dampers, 26 – Packaged Rooftop Units, 2 – Heating Water Boilers, 5 – heating and cooling water pumps, 25 – return and exhaust fans, 21 – outside air / intake hoods, thousands of feet of chilled / heating water pipe, plumbing pipe, hvac ductwork and multiple plumbing fixtures drains and carriers.

With a scheduled finish date in the spring of 2012, the Mansfield I.S.D. Center for the Performing Arts is on its way to being fantastic venue!!!
